Project Name	Project – A Novel Method For Handwritten Digit Recognition
Maximum Marks	2 Marks

Customer Problem Statement :

Banks need an automation tool to recognize digits in a cheque to speed up the cheque approval process which usually takes time with high accuracy. The Department of traffic enforcement needs a number plate digit recognition tool to integrate with traffic monitoring system to remove manual monitoring which is error prone and impose penalty for speeding online.
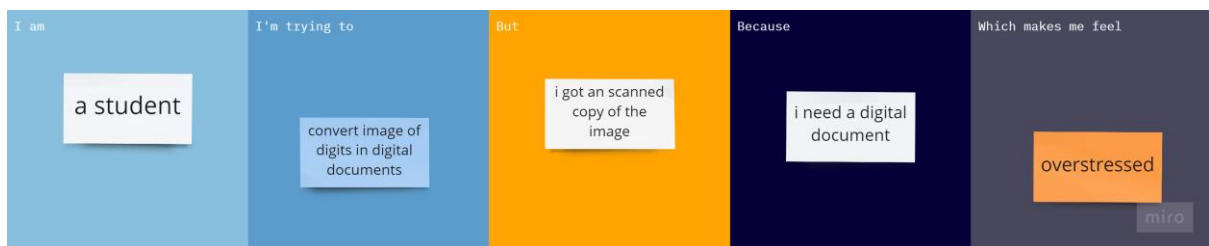

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student	Convert image of digits in digital documents	I got an scanned copy of the image	I need a digital document	Overstressed.

PS-2	Working in a record section	All phone numbers into a digital document	It consumes lots of time for creating documents manually	I need a simple process for creating digital document	So annoyed.
